"Cookies for internal use"

Storage period and cookies used

- ◆ **Session cookie "DEHIPSS"**

Contains a random session identification value associated with the user on the server. During this session, technically relevant information for the smooth operation of the system is temporarily stored on the server. The connection with the user is deleted when logging out, if the user is inactive for more than 30 minutes or a maximum session duration of 9 hours. The cookie has a shelf life until the browser is closed. The value of the cookie is renewed every half an hour.

- ◆ **DOM storage "session storage"**

Session storage is used in the browser. Data for sorting and filtering the overview tables are stored within the system. The data contained there are not communicated to the server and deleted when the browser or a tab is closed.

Cookies

Types and purpose of processing:

Like many other websites, we also use so-called "cookies". Cookies are small text files that are stored on your end device (laptop, tablet, smartphone, etc.) when you visit our website.

Cookies cannot be used to start programs or transfer viruses to a computer. Based on the information contained in cookies, we can make navigation easier for you and enable our websites to be displayed correctly. Under no circumstances will the data we collect be passed on to third parties or linked to personal data without your consent.

In general, you can deactivate the use of cookies at any time via the settings in your browser. Please use the help functions of your internet browser to find out how you can change these settings. Please note that individual functions of our website may not work if you have deactivated the use of cookies.

You can delete individual cookies or the entire cookie inventory via your browser settings. You will also receive information and instructions on how to delete these cookies or block their storage in advance. Depending on the provider of your browser, you will find the necessary information under the following links:
